Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

1. This communication is in response to Applicant's amendment filed on January 26, 2005. The rejections cited are as stated below:

### ***Response to Applicant's amendment***

2. Applicants' amendment filed on January 26, 2005 have been fully considered, and discussed in the next section below or within the following rejections are not deemed to be persuasive. Applicants' request for allowance is respectfully denied.
3. The Examiner acknowledges Applicant's amendment to the specification (abstract), and the submission of a terminal disclaimer to over come the non-statutory double patenting rejection and therefore withdraws the previous office action objections and rejections regarding these matters. Applicant's remaining traversals are discussed below.

### ***Claim Rejections - 35 USC § 101***

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Art Unit: 3624

5. Claims 1-10 are rejected under 35 U.S.C. § 101 because the claimed invention is directed to non-statutory subject matter as discussed in paragraph 6 of the previous office action. Even though Applicant's amendment to the claims adds "a computer implemented method" to the preamble of each independent claim, the amendment does not include in the body of the claims at least one structural / functional interrelationship which can only be computer implemented as suggested by the Examiner in the previous office action. Therefore, the rejection under 35 U.S.C. 101 is maintained.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

7. Claims 1, and 3-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Case et al. (U.S. Patent No. 5,734,890) as discussed in paragraph 8 of the previous office action.

***Claim Rejections - 35 USC ' 103***

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent May not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. The factual inquiries set forth in *Graham v. John Deere Co.*, 148 USPQ 459, that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or unobviousness.

10. Claims 2, and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Case et al. (U.S. Patent No. 5,734,890) in view of Gartner Group Executive Services "Executive Market Analysis Program" (EMAP pp. 11-36) as discussed in the previous office action.

***Response to Arguments***

11. Applicant's arguments with respect to claims 1-10 have been fully considered but are not deemed to be persuasive.

Claims 1-10 of the present application have been already submitted (as originally filed) in the parent application 08/716,948 now Patent number 5,963,910. The claims in

the parent application were rejected under the same grounds stated in this office action. Applicant submitted similar arguments and requested a personal interview to discuss the differences between the claimed invention and the cited prior art. A demonstration of the invention was conducted by the Applicant explaining the details of the invention. The Examiner explained with a reasonable claim interpretation how the claims can be rejected using the prior art of record. Applicant agreed, an amendment to the claims was presented to overcome the 102 and 103 rejections. Applicant is respectfully advised to review the history of the parent application. In particular, the interviews and amendments submitted in response to rejected claims above.

### ***Conclusion***

**12.** Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
